

Question 20 Exhibit 3

1 example of our customers credit card information being emailed from Prashant Telang/TPS to our customer, telling them our company is a scam that sells customer credit card and identity information

Subject: Fw: Notice Cancel your credit card immediately Natural Sapphire Company Scam

I received this message in my inbox, and immediately called your company. They asked I forward the email to you. I find it slightly disconcerting that someone is able to obtain an unencrypted version of my credit card number. Luckily, this particular account has already been closed so it isn't a security risk for me, but I have purchased from you more recently using other cards as well, and am currently in the process of getting new numbers on the other accounts. I really enjoyed doing business with your company, and I've spoken very highly of the quality of work to friends and family, but this is a problem that needs to be corrected immediately.
