# Exhibit 23

Prashant Telang/TPS soliciates NSC's direct competitors to sell our trade secrets / proprietary software systems. One of many examples we were able to screen capture evidence of; Angara (trade competitor) was even using NSC's product images on their website.

What I need or require:
I would like to redesign the design/UI and look/feel of the main pages on [obscured]
In total, I would like 10-15 pages redesigned. For example, I would like to select a
vendor to redesign the homepage ([obscured]), catalog page ([obscured] /Sapphire-
Rings.do?cID=1939), and product page ([obscured] /Sapphire-Jewelry/Sapphire-
Rings/568625_ARW0455-6.5/y) and other similar pages. I would like the
structure/content blocks to remain the same for SEO purposes, but to change the
color scheme (need to stay within the orange/brown framework, but flexible
otherwise), look/feel, call to action buttons, etc.

What I already have versus what the provider will deliver:
I need .jpg and .psd files as an output. I would imagine 1 round of revision (2 at
most).

Other context/requirements that providers will need to know:
Batch work is fine. We can start with the three pages above, approve those and
then continue to the rest.
