The goal of demoralizing and panic inducing stress that they would lose their jobs and that NSC would soon collapse. He urged them to voluntarily leave the company.**

Michael Arnstein

I was in Sri lanka for 10 days ; Colombo and Ratnapura deposing before court & police against you and your criminal activities. We have a solid case against you. We will shut down your illegal operations in Lanka. We have good evidence that your people are working there under tourist visa. Your are indulging into illegal cash transactions without BOC clearance. We have also collected evidence that you are purchasing through cash; smuggled in from illegal mines. Believe it or not I also visited your shadow office in Ratnapura. Checked what is happening there. You are hoodwinking people . YOU ARE SELLING TRETATED SAPPHIRES PUCHASED FOR PENNIES AND DITCHING PEOPLE. ALL WILL BE OPEN TO PRESS , PEOPLE AND COURT SOON. I have evidence that you are also using child labor (what an asshole you are)

You have tried hard over the time to give a garb of "extortion" to our legal notice of recovering losses for your smear campaign and conspiracy. You have even tried hard to advertise this dispute as some sort of India v/s American to give it a bigger aura so you get Government machinery to work as your personal army. All your attempts have failed miserably. You are getting deeper and deeper into debts and crisis. We will send all the collected evidence from Lanka to court

Stand-by for bigger drama.

**I have written in my blood** that I will shut down all your illegal operations whatever it takes

Yes you can use this e-mail before the court.

NSC's CIO email to NSC employees in an attempt to ease the distress they were all under from being constantly taunted by Prashant's emails.

**Subject:** For those that have seen Prashant's emails

Prashant has made a dozen claims in the last few days..

99% of them are lies and scare tactics.. He is pissed cause he screwed up on the court paperwork.. and our lawyer just slammed him and closed him out of every single claim he made.

The only damage Prashant can do is to our reputation and our click ads cost.. Any other allegations is totally false.

There has been a lot of discussions about paying Prashant off.. To me, this makes no sense.. Even if we paid him a million dollars tomorrow, Prashant cannot remove the posts he made on the forums or the scam sites.. Those are now property of the websites and ONLY a court order (which we are halfway on the way to get now in our court case) can get Google to delist them.

So, we would have to pay a already proven pathological liar and HOPE that he keeps his word and doesn't post anymore, which he had already lied in the past about multiple times saying "it wasn't me!", but it was again proven to be him.. and he would demand us to end the court case which we need to remove the stuff already up. I see 0% of gain in giving this man money.
